

“Minimal” Impact?

Who is the Corps trying to fool?

Mountaintop removal blasts our richly forested mountains into rubble.

So far, the Army Corps of Engineers has permitted coal companies to bury over 900 miles of coalfield streams under what it calls “minimal” impact valley fills.

Tell the Corps to STOP fooling with our future!

**11:30 a.m. Monday, April 1, 2002
Protest at the Corps
corner of 5th Ave. and 8th St.
Downtown Huntington, WV**
